

# TV Manager User Guide

## Overview

TV Manager is a digital signage tool and a comprehensive live sport and betting screens platform, specifically tailored to sports betting markets. It is an easy-to-use drag-and-drop media system that allows users to create and manage betting pages, view live sports, engage customers with promos, organize playlists, and much more.

The entire TV Manager system is based on a drag-and-drop method of management, i.e. all the user needs to do to see the content is to drag the desired content and drop it on the group of TV Manager set-top-boxes.

## Content Types

### Uploads

Uploads are mostly used to show any advertisement that the user wants.

Using Uploads TV Manager users can upload an unlimited number of promotions as videos, images, and PDFs directly to TV Manager and show them to their customers.

All Files can be uploaded directly from the TV Manager user interface.

### Web Pages

Betting Web Pages are a core feature of TV Manager use in betting shops. They allow displaying of various games and products on TV screens anywhere TV Manager set-top-boxes are used.

Web Pages allow displaying web content, whether it's a webpage, an embedded video from an external video platform, or even an audio stream. Utilized to its max capabilities.

Currently, the most used case for web pages is displaying betting games in betting shops.

## Texts

Texts can be used alongside other media types like uploads, web pages, TV channels, live events, and odds. Texts are mainly here to put out quick messages for customers to inform them about recent and mostly temporary changes.

There are 7 types of texts in TV Manager:

- Running Line
- Movie Credits
- Static Text Top Left
- Static Text Top Right
- Static Text Bottom Left
- Static Text Bottom Right
- Static Text Center

## Logos

Logos similar to texts can be used alongside other media types like uploads, web pages, TV channels, live events, and odds. Logos are for showing any user uploaded logo on top of the playing media.

When uploading the logo it is needed to select the position of the logo where it will be displayed on the screen. It is possible to select from four predefined positions or select the custom position.

Only JPG, PNG, and SVG types logos can be uploaded to the TV Manager.

In order to have SVG files able to use, they are converted into PNG images instead. For this conversion, it is required to define the size (in pixels) of how big the image should be scaled. For that, an additional modal is thrown for the size selection, where this size should be specified, in a range from 10px to 1000px and have 200px set as the default value.

Logo position on the screen can be set by selecting from 4 predefined positions or by adjusting the custom position.

## TV Channels

TV Manager allows users to watch sport or any other channels user wants by dragging and dropping the channel on the screen group.

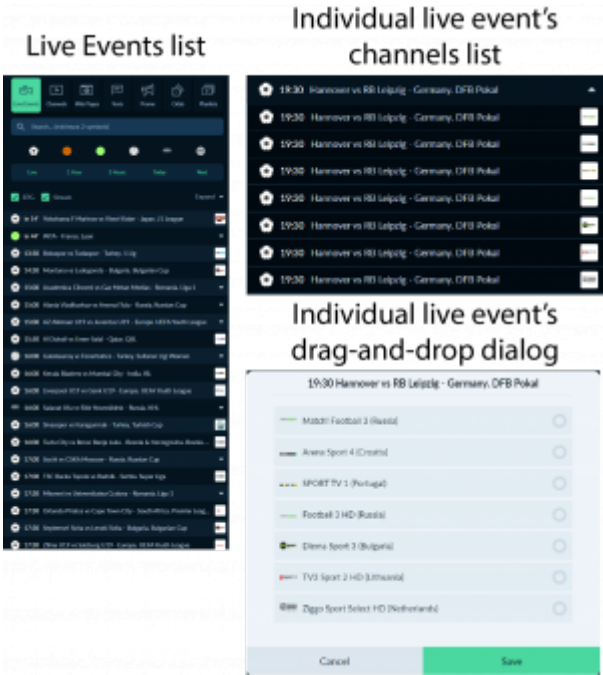

The user also has the possibility to display client-maintained IPTV channels.

Most TV channels have EPGs so users can easily follow the channel schedule.

Live Events

One of the main and best-utilized features of TV Manager is live events. There are more than 150 live channels to choose live sports events from. TV Manager features an easy-to-use interface where each user can choose which matches or sporting events he or she wants to view.

The following sports are currently included in the Live Events tab in TV Manager:

Football	Basketball
Tennis	Volleyball
Ice Hockey	American Football
Australian Football	Badminton
Baseball	Beach Badminton
Bowls	Boxing
Counter Strike	Cricket
Cycling	Boxing
Darts	Dota 2
E-Basketball	E-Football
Field Hockey	Futsal
Golf	Handball
Horse Racing	Indoor Football
League of Legends	Mixed Martial Arts

Rugby	Snooker	
Squash	Table Tennis	
Water Polo		

Odds

TV Manager allows sporting live events to be shown together with their live odds. Whether it is football, basketball, tennis, cricket, or any other sport, organizations can offer their customers an unparalleled betting and game-viewing experience in their betting shops and bars.

For all sports, the live odds experience is tailored to each sport specifically, meaning the betting markets and their changes throughout the event are customized to each sporting event. The bottom part of the odds stays constant throughout the match, offering the most popular betting options, such as winner, totals, and handicaps. The section on the right is tailored to the quarter or period the game is currently in, e.g. if a football match is currently in the 1st half, the betting markets on the right part of live odds will be tailored specifically to the first half of the match.

Playlists

Playlists combine all the TV Manager features into one solution for media management. Users can create and manage an unlimited number of playlists. All TV manager media types can be added to the playlist by dragging and dropping from the sidebar.

It is two types of playlists:

- All-day events - it is for playing and managing all content types except Odds and Live Events.
- Playlist events - can be used for playing and managing all types of media.

Login

Only the registered and logged in users can use the TV Manager. It is not possible to use TV Manager without logging in.

At first logging in the user can select the language in which the TV Manager will be presented. Later the language can only be changed by clicking on the user name in the navigation menu and selecting the wanted language from the languages dropdown menu.

To log in to the TV Manager user should enter the email as username and the password.

## Navigation Menu

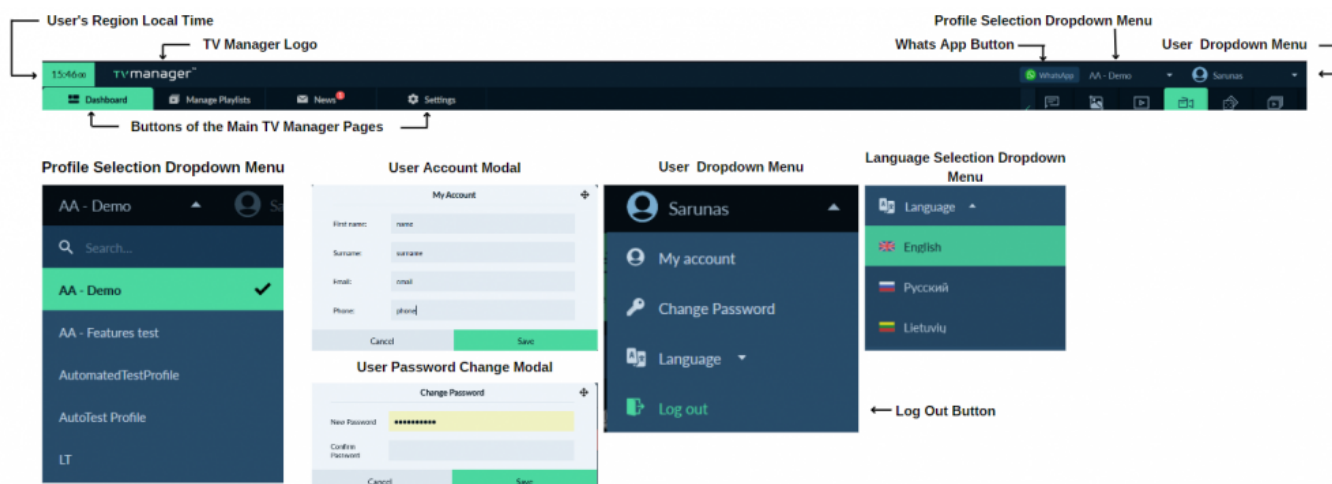

At the top navigation menu, the user can find:

1. User selected region local time
2. TV manager logo
3. WhatsApp button - where the user can reach out to TV Manager support via What's App. By clicking on it the user will be redirected to the WhatsApp page.
4. Profile selection dropdown menu - where the user can select any of their managed profiles.
5. User dropdown menu - where the user can find multiple options like:
  1. My account - where user can update their info such as Name, Username, Email, and Phone Number.
  2. Password Change - where user can easily change their password by entering the new one. It is not required to enter the old password.
  3. Language Selection - at the language selection menu user can select from English, Russian or Lithuanian languages and all the TV Manager UI will be translated into the selected language.
  4. Log Out button - by clicking on it user easily can log out from TV Manager.

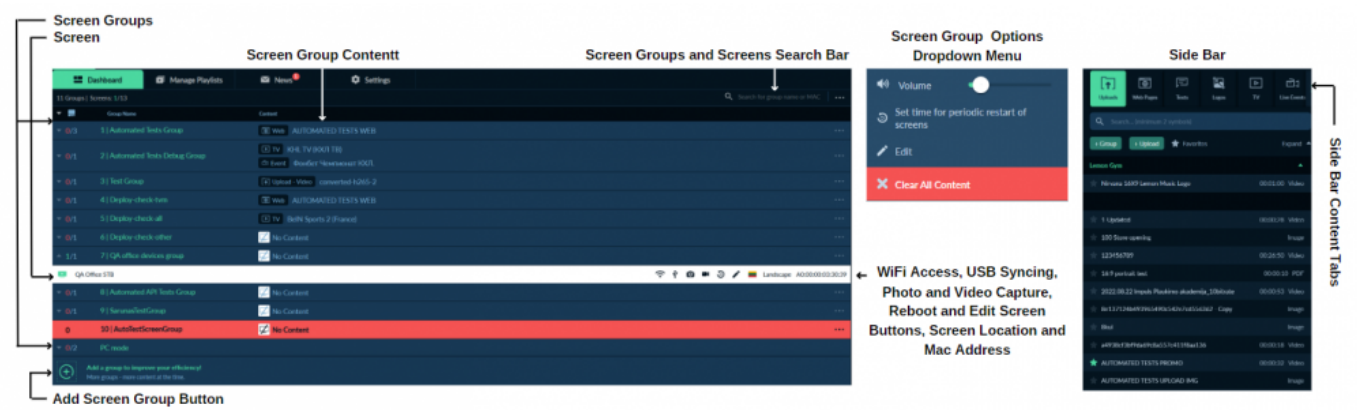

Under the top navigation, it is four buttons for the main TV Manager Pages:

- Dashboard
- Manage Playlists
- News
- Settings

The dashboard page will be displayed by default when the user logs in to the TV Manager.

# Dashboard Page

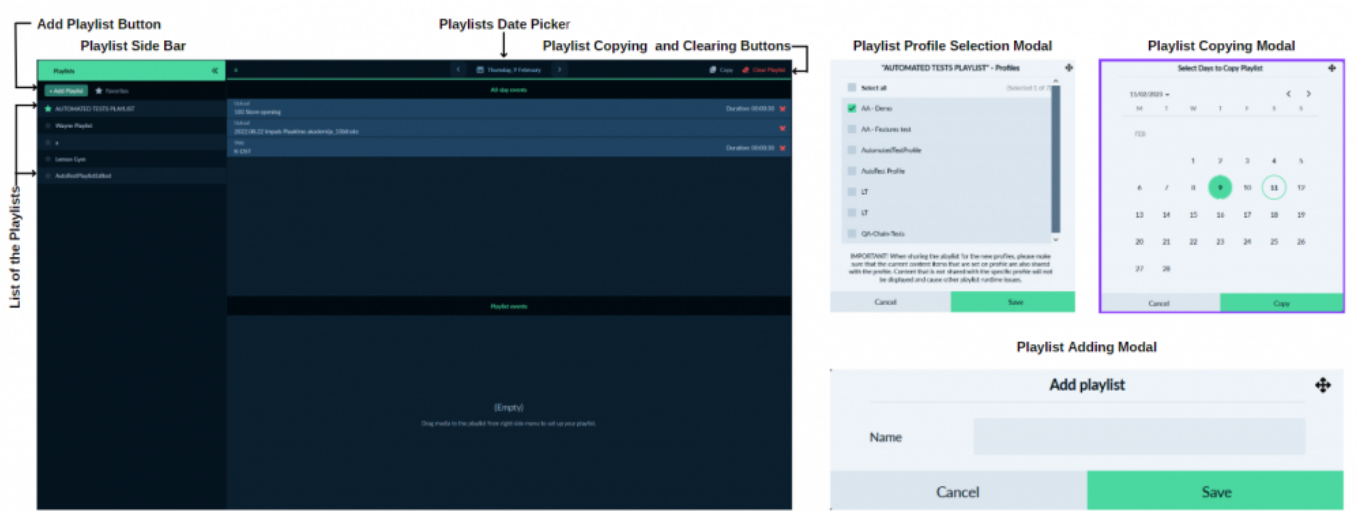

The main page of the TV Manager is the Dashboard, where users can easily manage which content and on what screens should be played.

The three most important things on the Dashboard page are:

1. **Screen Groups** - a block of screens where the content should be dragged and dropped. What content is playing is also visible on the screen group. Screen groups have the possibility to change the volume of the screens in the group. It is also possible to edit screen groups, pause and clear TV, clear all content, and set periodic restarts for the screens in the group.
2. **Screens** - if the screen group is expanded all the screens of that group are displayed. Screens have multiple options like Wi-Fi access point setup, USB files syncing, photo and video capture, screen restart, and editing.
3. **Sidebar** - at the sidebar user can find all their content. All content easily can be played by dragging it from the sidebar to the Screen Group.

The sidebar is separated into eight sections of different content types, to navigate between these sections it is only needed to click once on the wanted section.

# Playlist Management Page

The Playlist Management page is for Unlimited playlist management.

The Playlist Management page has a Playlist sidebar on the left screen side where a list of playlists is displayed.

For adding a new playlist the user should click on the "+ Add Playlist" button. It will open up the Playlist creation modal where the user needs to write a name for the playlist and click the "Save" button. The created playlist will appear in the playlist management page sidebar and on the sidebar playlists section on the dashboard. It is also possible to edit, select profiles and delete playlists.

To add content to the playlist user needs to select a playlist by clicking on it, then drag media to the playlist from the right-side menu to set up a media playlist. It is also possible to copy the playlist to another day and clear the playlist media.

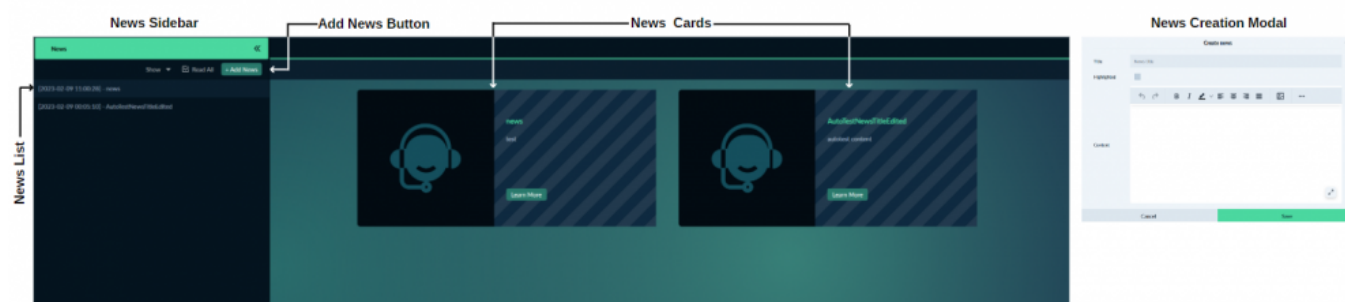

## News Page

The News page is for news management and important information display for the user.

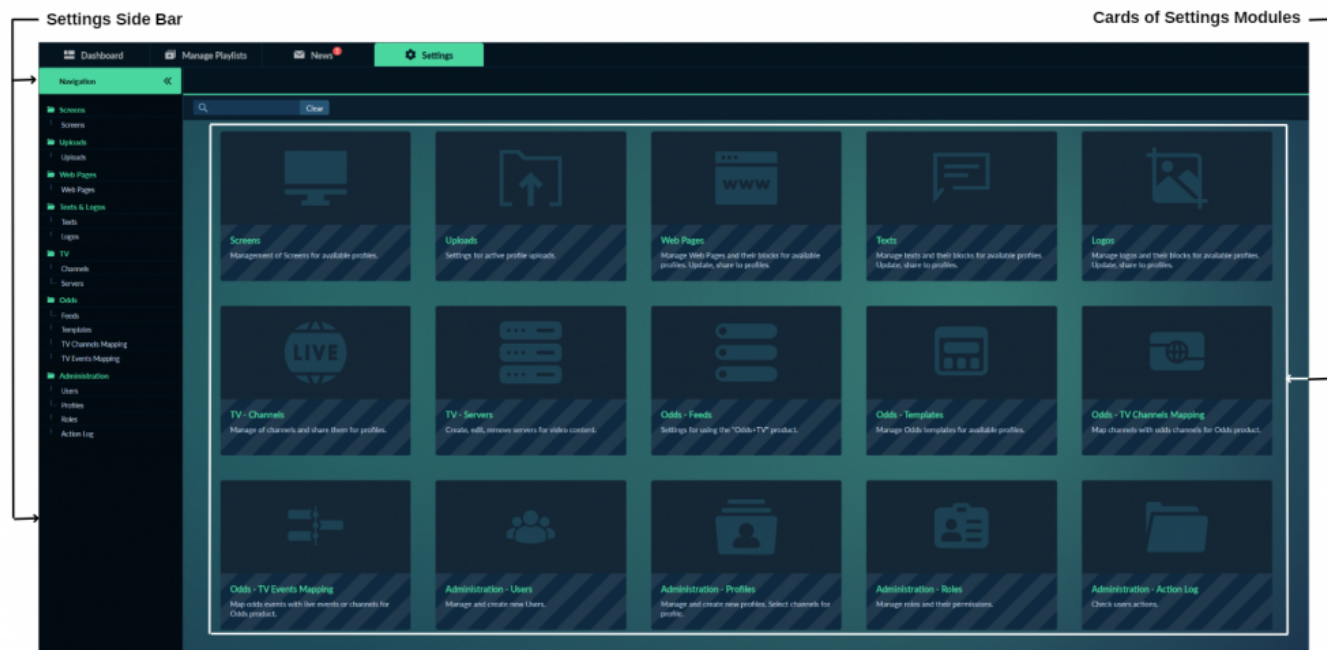

The news page has a navigation sidebar on the left screen side where all news is displayed. The news is also displayed as new cards.

For adding news the user should click on the "+ Add News" button. It will open up the news creating modal where the user needs to fill in information about the new webpage. It is needed to write a title, highlight the news or not, and if highlighted add a thumbnail, write a description, and click the "Save" button.

Created news will appear in the news page sidebar and as a news card.

## Settings Page

On the Settings page, it is all TV manager managing options, content creation, editing settings and etc...

The settings page has a navigation sidebar on the left screen side where different modules of settings can be selected. It is also can be selected by clicking on the settings cards.

## Screens

The screenshot displays the 'Screens' management interface. At the top, there are four main buttons: 'Create and Manage Groups Button', 'Add Screen Button', 'Screens Search Bar', and 'Edit and Delete Buttons'. Below these is a table with the following columns: Name, Order, ID, MAC address, Profile, Group, Location, IP, Location ID, Type, Orientation, Hardware, Release number, and Notification number. The table contains four rows of data. Below the table, there are three modal windows: 'Screen Group Adding Modals' (which includes a 'Select Profile' sub-modal and an 'AA - Demo - Create and Manage Groups' sub-modal), and 'Screen Adding Modal'.

ule is for screens and screen groups management for available profiles. On the settings-screens page, is displayed the list of the all screens of TV Manager.

At the right side of the "Create and Manage Groups" and "+ Add Screen" buttons is a search bar

where is the possibility to search for a screen by different search phrases like screen name, online status, MAC address, profile, screen group and by other columns displayed in the list of screens.

For adding a new screen group it only takes to click the "Create and Manage Groups" button, then select a profile in which the screen group should be created. The next step is to write the name of the wanted screen group and click the "+" to finish creating the screen group.

In this same modal of screen groups, can be set in which order they will be displayed on the dashboard page. The screen group order managing works very easily by clicking the up or down arrows on the screen group.

For adding a new screen the "+ Add Screen" button should be clicked. It opens a modal where the information of the screen like MAC address, and name should be entered. The other options like type, orientation, and group should be selected from dropdown menus. It is also possible to set up a Wi-Fi access point. After that screen can be saved and it will appear in the settings screens list and in the selected screen group on the dashboard page. It is also possible to delete and edit screens.

## Uploads

The screenshot displays the 'Uploads' section of the TV Manager interface. At the top, there are buttons for 'Create and Manage Groups', 'Upload Image', 'Upload Video', and 'Add'. A search bar labeled 'Uploads Search Bar' is positioned above the main table. The table lists various uploads with columns for Name, Type, Profile, ID, Location, Size, Date Added, and Actions (Preview, Edit, Select Profiles, Delete). To the right, there is a modal titled 'Upload Groups Creation and Management Modals' with a 'Create and Manage Groups' button. Below the main table, there are three smaller modals: 'Profile Selection Modal' showing a list of profiles, 'Upload Preview Modal' showing a preview of the upload, and 'Files Uploading Modal' showing a list of files being uploaded.

Module is for uploads and uploads groups management for available profiles. On the settings-uploads page, is displayed the list of all the uploads of TV Manager.

Same as on the settings-screens page on the uploads page it is a search bar where is the possibility to search for an upload by different search phrases.

For adding a new upload group it only takes to click the "Create and Manage Groups" button, then select a profile, write the wanted name for the upload group, and click the "+" to finish creating the upload group.

It is two types of uploads. The first type is images and the second is videos.

For adding a new upload image or video the user should click on the "+ Upload Image" or "+ Upload Video" buttons. It will open up the files uploading modal where files can be added to upload by

browsing files or by dragging and dropping the files from the user's computer to the file uploading modal. Files can be added one by one or by adding multiple files at the same time.

At the same modal, it is also possible to select the upload group for every added file, delete files one by one or all together, change added file names, and share all files together to the wanted profiles.

All uploaded files will appear in the settings-uploads list and in the sidebar uploads tab on the dashboard page. It is also possible to delete and edit the upload, select profiles, and preview it.

## Web Pages

The screenshot displays the WebPages application interface. At the top, there are three main sections: "Create and Manage Groups Button" (a green button), "WebPages Search Bar" (a search input field), and "Edit, Select Profiles and Delete Buttons" (a set of icons for editing, selecting, and deleting). Below these is a table with columns: Name, Group, Profile, Protocol, Host, Path, Parameters, Columns, Rows, and Refresh. The table lists various web pages, including "15 min", "AI/ROMA(H) TESTS (B-E)", "AutoflexChainWebPage", "AutoflexWebPage", "Bil Virtuals", "Eon", "Indie / Bedroom / Pop / Surf Rock - 24/7 Radio - Nippon City FM", "K-DiF", and "To manager".

Below the table, there are three modals:

- WebPages Groups Creation and Management Modals:** This modal shows a list of groups (AA - Demo, AA - Features test, AutomatedTestProfile, Autoflex Profile, LT - Epilgus Test 1, LT - Epilgus Test 2, QA Chain Tests) and a "Create and Manage Groups" button.
- Profiles Selection for WebPages Modal:** This modal shows a list of profiles (AA - Demo, AA - Features test, AutomatedTestProfile, Autoflex Profile, LT, LT, QA Chain Tests) and a "Share Web Page for other profiles" button.
- WebPages List:** This is a vertical list on the left side of the interface, showing the names of the web pages.

rule is for webpages and their groups managing for available profiles. On the settings-webpages page, the list of all webpages added to TV Manager is displayed.

Same as on the settings-screens page on the webpages page it is a search bar where is the possibility to search for a webpage by different search phrases.

For adding a new webpage group it only takes to click the "Create and Manage Groups" button, then select a profile, write the wanted name for the webpage group, and click the "+" to finish creating the webpage group.

For adding a new webpage the user should click on the "+ Add Web Page" button. It will open up the webpage creation modal where the user needs to fill in information about the new webpage. It is needed to write a name for a webpage, select a group of the webpage and enter the wanted webpage URL and click the "Save" button.

The created webpage will appear in the settings-webpages list and in the sidebar webpages tab on the dashboard page. It is also possible to delete and edit the webpage, and select profiles.

## Texts

The Texts settings module is for texts managing for available profiles. On the settings-texts page the list of all texts added to TV Manager is displayed.

Same as on the settings-screens page on the texts page it is a search bar where is the possibility to search for a text by different search phrases.

For adding a new text the user should click on the "+ Add Text" button. It will open up the text creation modal where the user needs to fill in information about the new text. It is needed to write a name for a text, select a type of text, enter the wanted content for the text, and click the "Save" button.

Created Text will appear in the settings-texts list and in the sidebar texts tab on the dashboard page. It is also possible to delete edit the texts, and select profiles.

The screenshot displays the 'Texts' settings module. At the top, there is a header with an 'Add Text Button' (+ Add Text), a 'Texts Search Bar' with a search icon and a 'Clear' button, and 'Edit, Profiles Selection and Delete Buttons' (edit, share, and delete icons). Below the header is a table listing various text entries.

Same as on the settings screens page on the action log page it is a search bar where is the possibility

to search for an action by different search phrases. It is also possible to filter actions by date, action, and object type and to sort by name, object type, action object name, IP, and time.

On every action log item row, it is an "I" icon, by clicking on it the user can see more info about the action.
