TV Manager User Guide

Overview

TV Manager is a digital signage tool and a comprehensive live sport and betting screens platform, specifically tailored to sports betting markets. It is an easy-to-use drag-and-drop media system that allows users to create and manage betting pages, view live sports, engage customers with promos, organize playlists, and much more.

The entire TV Manager system is based on a drag-and-drop method of management, i.e. all the user needs to do to see the content is to drag the desired content and drop it on the group of TV Manager set-top-boxes.

Content Types

Uploads

Uploads are mostly used to show any advertisement that the user wants.

Using Uploads TV Manager users can upload an unlimited number of promotions as videos, images, and PDFs directly to TV Manager and show them to their customers.

All Files can be uploaded directly from the TV Manager user interface.

Web Pages

Betting Web Pages are a core feature of TV Manager use in betting shops. They allow displaying of various games and products on TV screens anywhere TV Manager set-top-boxes are used.

Web Pages allow displaying web content, whether it's a webpage, an embedded video from an external video platform, or even an audio stream. Utilized to its max capabilities.

Currently, the most used case for web pages is displaying betting games in betting shops.

Texts

Texts can be used alongside other media types like uploads, web pages, TV channels, live events, and odds. Texts are mainly here to put out quick messages for customers to inform them about recent and mostly temporary changes.

There are 7 types of texts in TV Manager:

- Running Line
- Movie Credits
- Static Text Top Left
- Static Text Top Right
- Static Text Bottom Left
- Static Text Bottom Right
- Static Text Center

Logos

Logos similar to texts can be used alongside other media types like uploads, web pages, TV channels, live events, and odds. Logos are for showing any user uploaded logo on top of the playing media.

Logo position on the screen can be set by selecting from 4 predefined positions or by adjusting the custom position.

TV Channels

TV Manager allows users to watch sport or any other channels user wants by dragging and dropping the channel on the screen group.

The user also has the possibility to display client-maintained IPTV channels.

Most TV channels have EPGs so users can easily follow the channel schedule.

Live Events

One of the main and best-utilized features of TV Manager is live events. There are more than 150 live channels to choose live sports events from. TV Manager features an easy-to-use interface where each user can choose which matches or sporting events he or she wants to view.

The following sports are currently included in the Live Events tab in TV Manager:

| Football | Basketba | II |
|---------------------|-----------|-------------|
| Tennis | Volleybal | l |
| Ice Hockey | Americar | n Football |
| Australian Football | Badminto | on |
| Baseball | Beach Ba | dminton |
| Bowls | Boxing | |
| Counter Strike | Cricket | |
| Cycling | Boxing | |
| Darts | Dota 2 | |
| E-Basketball | E-Footba | II |
| Field Hockey | Futsal | |
| Golf | Handball | |
| Horse Racing | Indoor Fo | otball |
| League of Legends | Mixed Ma | artial Arts |
| Rugby | Snooker | |
| Squash | Table Tei | nnis |
| Water Polo | | |
| | | |

Odds

TV Manager allows sporting live events to be shown together with their live odds. Whether it is football, basketball, tennis, cricket, or any other sport, organizations can offer their customers an unparalleled betting and game-viewing experience in their betting shops and bars.

Aardvark Technologies Wiki - https://wiki.advbet.com/

For all sports, the live odds experience is tailored to each sport specifically, meaning the betting markets and their changes throughout the event are customized to each sporting event. The bottom part of the odds stays constant throughout the match, offering the most popular betting options, such as winner, totals, and handicaps. The section on the right is tailored to the quarter or period the game is currently in, e.g. if a football match is currently in the 1st half, the betting markets on the right part of live odds will be tailored specifically to the first half of the match.

Playlists

Playlists combine all the TV Manager features into one solution for media management. Users can create and manage an unlimited number of playlists. All TV manager media types can be added to the playlist by dragging and dropping from the sidebar.

It is two types of playlists:

- All-day events it is for playing and managing all content types except Odds and Live Events.
- Playlist events can be used for playing and managing all types of media.

Login

Only the registered and logged in users can use the TV Manager. It is not possible to use TV Manager without logging in.

At first logging in the user can select the language in which the TV Manager will be presented. Later the language can only be changed by clicking on the user name in the navigation menu and selecting the wanted language from the languages dropdown menu.

To log in to the TV Manager user should enter the email as username and the password.

Navigation Menu

At the top navigation menu, the user can find:

- 1. User selected region local time
- 2. TV manager logo

- 3. WhatsApp button where the user can reach out to TV Manager support via What's App. By clicking on it the user will be redirected to the WhatsApp page.
- 4. Profile selection dropdown menu where the user can select any of their managed profiles.
- 5. User dropdown menu where the user can find multiple options like:
 - 1. My account where user can update their info such as Name, Username, Email, and Phone Number.
 - 2. Password Change where user can easily change their password by entering the new one. It is not required to enter the old password.
 - 3. Language Selection at the language selection menu user can select from English, Russian or Lithuanian languages and all the TV Manager UI will be translated into the selected language.
 - 4. Log Out button by clicking on it user easily can log out from TV Manager.

Under the top navigation, it is four buttons for the main TV Manager Pages:

- Dashboard
- Manage Playlists
- News
- Settings

The dashboard page will be displayed by default when the user logs in to the TV Manager.

The main page of the TV Manager is the Dashboard, where users can easily manage which content

and on what screens should be played.

The three most important things on the Dashboard page are:

- Screen Groups a block of screens where the content should be dragged and dropped. What
 content is playing is also visible on the screen group. Screen groups have the possibility to
 change the volume of the screens in the group. It is also possible to edit screen groups, pause
 and clear TV, clear all content, and set periodic restarts for the screens in the group.
- 2. Screens if the screen group is expanded all the screens of that group are displayed. Screens have multiple options like Wi-Fi access point setup, USB files syncing, photo and video capture, screen restart, and editing.
- 3. Sidebar at the sidebar user can find all their content. All content easily can be played by dragging it from the sidebar to the Screen Group.

The sidebar is separated into eight sections of different content types, to navigate between these sections it is only needed to click once on the wanted section.

Playlist Management Page

The Playlist Management page is for Unlimited playlist management.

The Playlist Management page has a Playlist sidebar on the left screen side where a list of playlists is displayed.

For adding a new playlist the user should click on the "+ Add Playlist" button. It will open up the Playlist creation modal where the user needs to write a name for the playlist and click the "Save" button. The created playlist will appear in the playlist management page sidebar and on the sidebar playlists section on the dashboard. It is also possible to edit, select profiles and delete playlists.

To add content to the playlist user needs to select a playlist by clicking on it, then drag media to the playlist from the right-side menu to set up a media playlist. It is also possible to copy the playlist to another day and clear the playlist media.

News Page

The News page is for news management and important information display for the user.

The news page has a navigation sidebar on the left screen side where all news is displayed. The news is also displayed as new cards.

For adding news the user should click on the "+ Add News" button. It will open up the news creating modal where the user needs to fill in information about the new webpage. It is needed to write a title, highlight the news or not, and if highlighted add a thumbnail, write a description, and click the "Save" button.

Created news will appear in the news page sidebar and as a news card.

Settings Page

On the Settings page, it is all TV manager managing options, content creation, editing settings and etc...

The settings page has a navigation sidebar on the left screen side where different modules of settings can be selected. It is also can be selected by clicking on the settings cards.

ule is for screens and screen groups management for available profiles.

At the right side of the "Create and Manage Groups" and "+ Add Screen" buttons is a search bar where is the possibility to search for a screen by different search phrases like screen name, online status, MAC address, profile, screen group and by other columns displayed in the list of screens.

For adding a new screen group it only takes to click the "Create and Manage Groups" button, then select a profile in which the screen group should be created. The next step is to write the name of the wanted screen group and click the "+" to finish creating the screen group.

In this same modal of screen groups, can be set in which order they will be displayed on the dashboard page. The screen group order managing works very easily by clicking the up or down arrows on the screen group.

For adding a new screen the "+ Add Screen" button should be clicked. It opens a modal where the information of the screen like MAC address, and name should be entered. The other options like type, orientation, and group should be selected from dropdown menus. It is also possible to set up a Wi-Fi access point. After that screen can be saved and it will appear in the settings screens list and in the selected screen group on the dashboard page. It is also possible to delete and edit screens.

Same as on the settings-screens page on the uploads page it is a search bar where is the possibility to search for an upload by different search phrases.

For adding a new upload group it only takes to click the "Create and Manage Groups" button, then select a profile, write the wanted name for the upload group, and click the "+" to finish creating the upload group.

It is two types of uploads. The first type is images and the second is videos.

For adding a new upload image or video the user should click on the "+ Upload Image" or "+ Upload Video" buttons. It will open up the files uploading modal where files can be added to upload by browsing files or by dragging and dropping the files from the user's computer to the file uploading modal. Files can be added one by one or by adding multiple files a the same time.

At the same modal, it is also possible to select the upload group for every added file, delete files one by one or all together, change added file names, and share all files together to the wanted profiles.

All uploaded files will appear in the settings-uploads list and in the sidebar uploads tab on the dashboard page. It is also possible to delete and edit the upload, select profiles, and preview it.

Same as on the settings-screens page on the web pages page it is a search bar where is the possibility to search for a web page by different search phrases.

For adding a new web page group it only takes to click the "Create and Manage Groups" button, then select a profile, write the wanted name for the web page group, and click the "+" to finish creating the web page group.

For adding a new web page the user should click on the "+ Add Web Page" button. It will open up the web page creation modal where the user needs to fill in information about the new web page. It is needed to write a name for a web page, select a group of the web page and enter the wanted web page URL and click the "Save" button.

URLs of Web Pages are separated into different parts, for better filtering and search capabilities: Protocol, Host, Path, and Parameters.

The created web page will appear in the settings-web pages list and in the sidebar web pages tab on the dashboard page. It is also possible to delete and edit the web page, and select profiles.

Texts

The Texts settings module is for texts managing for available profiles.

Same as on the settings-screens page on the texts page it is a search bar where is the possibility to search for a text by different search phrases.

For adding a new text the user should click on the "+ Add Text" button. It will open up the text creation modal where the user needs to fill in information about the new text. It is needed to write a

name for a text, select a type of text, enter the wanted content for the text, and click the "Save" button.

Created Text will appear in the settings-texts list and in the sidebar texts tab on the dashboard page. It is also possible to delete edit the texts, and select profiles.

The Logos Settings Module is for logos managing for available profiles.

Same as on the settings-screens page on the logos page it is a search bar where is the possibility to search for a logo by different search phrases.

For adding a new Logo the User should click on the "+ Add Logo" button. It will open up the files uploading modal where files can be added to upload by browsing files or by dragging and dropping the file from the user's computer to the files uploading modal. Files can be added one by one or by adding multiple files a the same time.

At the same modal, it is also possible to select the position in which the logo will be displayed on the screen. it is possible to select from four predefined positions or select a custom position. It is also possible to delete files one by one or all together, change added file names, and share all files together to the wanted profiles.

Only JPG, PNG, and SVG types logos can be uploaded to the TV Manager. In order to have SVG files able to use, they are converted into PNG images instead. **SVG Logo Size Selection Modal**

For this conversion, is it required to define the size (in pixels) of how big the image should be scaled. For that, an additional modal is thrown for the size selection, where this size should be specified, in a range from 10px to 1000px and have 200px set as the default value.

All uploaded logos will appear in the settings-logos list and in the sidebar logos tab on the dashboard page. In the logos list it is also possible to preview, edit, delete, and select profiles for logos.

The Odds TV Events Mapping settings module is for TV channels or TV events with odds events mapping.

To map an odds event to the TV channel or TV event it is needed to drag and drop the TV channel or TV event from the content sidebar to the selected odd event.

It is possible to filter events mapping by odds feeds or by different sports.

For some odd events the "!" is attached with a suggestion on which channel should mapped.

es added to TV Manager is displayed.

For adding a new role the user should click on the "+ Add Role" button. It will open up the role creation modal where the user needs to fill in information about the new role. It is needed to write a name and description, select wanted permissions, and click the "Save" button.

The created role will appear in the settings roles list and it will be possible to select the role when creating or editing the user. It is also possible to delete and edit the role and their permissions.

Action Log

I

s for user action checking. On the settings-action log page, the list of all actions made in the TV Manager is displayed.

Same as on the settings screens page on the action log page it is a search bar where is the possibility

to search for an action by different search phrases. It is also possible to filter actions by date, action, and object type and to sort by name, object type, action object name, IP, and time.

On every action log item row, it is an "I" icon, by clicking on it the user can see more info about the action.
